Tip Tap Poum

Tip Tap Pum is a musical show of physical theater and tap-dance, for all ages and with much impudence.

An eccentric character that coming from this side, some tap shoes, pots, spoons, saucers and some sound delirious elements, transform the space in a theatrical concert, a particular orchestra and in authentic waves of laughter.

A character that you will not take away eyes off him from start to finish.

An original, innovative and interactive show!

Without words, without hyphens, fresh and spontaneous.
